在校大学生

Interviewer: Are you working or studying?

Candidate: I'm studying at Tsinghua University.

Interviewer: What's your major?

Candidate: I major in environmental studies.

Interviewer: Why did you choose this major?

Candidate: This field will be one of the hottest industries in the near future, and environmental protection will be the focus of the world.

Interviewer: What are the advantages and disadvantages of your university?

Candidate: The academic level of my university is advanced, and professors have great achievement in their field. I feel enlightened in the class. There is one thing that I am not satisfied with my university, that is, the accommodation is terrible and our room is close to the street, which is noisy.

大学毕业生未参加工作的考生

Examiner: Are you working or studying?

Candidate: I just graduated from a university last year and because I want to go abroad, I haven't looked for a job.

Examiner: What did you study in the university?

Candidate: You mean my major? Well, I majored in environmental engineering.

Examiner: How do you like your life in the university?

Candidate: Well, it was quite colorful. The Student Union gave a lot of parties and activities. I joined a photography club. It was fun.

高中生

Examiner: Are you working or studying?

Candidate: I'm studying in the second year at high school.

Examiner: Can you describe your life in school?

Candidate: I get to school at 7 o'clock and I prepare for the lessons. We have 6 hours of classes every day. Then I go back home.

Examiner: What is the advantage of your high school?

Candidate: You know, our high school is a key school. All the teachers are excellent and qualified. Thanks to their knowledge, a large number of graduates are admitted to famous universities.

Examiner: Is there anything you dislike about your school?

Candidate: Yes. Students get a lot of pressure from their teachers. There's no after-class activity. Students are doing well in their studies but their knowledge is very limited. I don't think this is beneficial for their later development.

Examiner: In your opinion, what should be done to improve your high school?

Candidate: Students should be encouraged to develop their interest in all subjects, and their potential should be explored.

高中毕业未上大学考生

Examiner: Are you working or studying?

Candidate: I just graduated from a high school. And I didn't go to university because I want to receive my higher education abroad.

Examiner: Can you describe life in your high school?

Candidate: I liked my high school. There were a lot of after-class activities which students could enjoy. I went to school at 7 a.m. and finished class at 5 p.m. We had homework every day but it was not very heavy.

Examiner: What are the advantages of your high school?

Candidate: Well, you know, my school was a key school and all the teachers and students were the most excellent. Students were not only encouraged to learn from books but were also required to increase their practical ability, which the students liked very much.

Examiner: Is there anything you disliked about your school?

Candidate: No. I liked my high school life and I believe it will always be a happy memory. I was on good terms with my teachers and my classmates. We helped each other and we learned how to cooperate with each other and I think it will be beneficial to us in the future.

Examiner: What do you plan to study in future?

Candidate: It's really hard to make a decision. I'd like to learn computer application because it's going to be very useful and I like science and logic.

Examiner: Which country would you like to go to?

Candidate: I'd like to go to Australia because the tuition is not so high and my parents can afford it.

Examiner: Which university do you want to go to?

Candidate: I've heard that Melbourne University has a good reputation and they have a long history as well. Maybe I'll go there.
