Why you think she/he is adventurous

How often you meet her/him

I got to know about this adventurous person from a TV program. There was a Japanese man, who is about 60 years old. He decided to do something he had always wanted to do after his retirement. He wanted to conquer all the mountains in his country. He started the journey in June, and then he climbed over 100 mountains in Japan within one year. When he was interviewed in the program, he quoted a famous mountaineer. He said, "The mountain is there." When I was watching the program, I was quite impressed. Everyone has a dream, and not many people have the courage to fulfill their dream, but he did it. I admire him, and I really want to be like him some day in the future.

#### Part three

Interviewer:	Are you an adventurous person?
Candidate:	I don't think so. I don't even want to ride the roller-coaster, and it is terrifying experience for me. I really don't understand why so many people are crazy about it.
Interviewer:	Do you think that the society should help the adventurous person?
Candidate:	I don't think so. The adventurous people are those who do extreme games, and it is risky. We shouldn't encourage this kind of behavior, but we should rescue them when their life is in danger.
Interviewer:	Do you know any adventurous activities/extreme games?
Candidate:	Car racing and hot air ballooning are extreme games and it is dangerous. Parachuting is an extreme game as well.
Interviewer:	Do you like them?
Candidate:	It is too risky for me, and I have no interest in it at all. I have only one life, and I

	don't want to sacrifice my life for it.
Interviewer:	Why do people like adventures?
Candidate:	Some people are born with the adventurous spirit and they can't resist the temptation to take risks. Life is meaningless if there is no adventurous experience.
Interviewer:	Why are there so many adventurous programs?
Candidate:	Some people don't do it themselves, but they like to watch it. They are curious about that kind of life.
Interviewer:	What's your idea of people spending extra money on this?
Candidate:	It's ok. As long as people can afford the game, they can buy whatever they like. People have the freedom to spoil their hobby a little bit.
